DESIGN = ECONOMY*
*Olle Eksell, 1964
GRAU

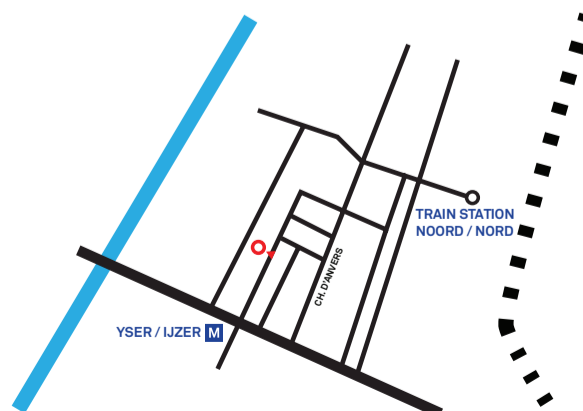

Paris-based practice GRAU quickly established a foreground position with project such as 50.000 dwellings and 'Garonne-Eiffel' in Bordeaux, Rivercity in Göteborg and "The Ambition of the Territory" at the Venice Biennale of Architecture 2012. GRAU will provide insights on several strategies integrating and articulating the urban and architectural scales, generating new interactions and development potentials.

NOV 05TH - 8PM

MATCHMAKING
51N4E

51N4E gained renown through key projects such as Lamot, TID Tower Tirana, C-Mine, Skanderbeg Square and strategic visions for large-scale urban regions such as 50.000 dwellings in Bordeaux, Bruxelles Métropole 2040 and Making City Istanbul. Freek Persyn will provide a new reading of the work of 51N4E, exploring and experimenting programmatic hybrids and crossovers.
